Dear Sirs,

Please allow us to introduce ourselves: we are the first Romanian company which perform all stages of collecting, transportation, processing high quality top shell meat, depositing and exporting **Rapana Venosa/Thomassiana** gathered by divers and trawlers from Black Sea, between of June to end of November.

The large Asian gastropod mollusk *Rapana venosa* Valenciennes (Neogastropoda, Muricidae) is native to the Sea of Japan, Yellow Sea, Bohai Sea and the East China Sea to Taiwan. This specie has been introduced to the Black Sea some time in the 1940s, where it occurs on sandy and hard-bottom substrates to 40 m depth. A gastropod, *Rapana venosa*, is the first alien commercial species in the Black Sea and after 1980's become an export product for all the Black Sea countries except Romania.

Latin name : **Rapana Thomassiana / Rapana Venosa / Rapana Pontica**
