Business Type: Wholesaler

Bendkopp was established as a family company in the year 1994 and is still running as a family company. Since the beginning for our business partners we are the reliable supplier of screws, bolts, washers, rivets, anchors, and fixing technique. Our customers are all over the country, over 10000 shops and businesses in different industries, served by an extensive distribution network led by our area managers.

In 2006 the company implemented a quality management system EN ISO 9001: 2000 which was certified and recertified to ISO 9001:2008 for the "Trade of fasteners and fastening systems".

In 2008 we started the construction of our new headquarters, which opened in the summer of 2009 and includes an office and a warehouse of 2200 m² with a capacity of 3000 tons of stock. The traceability of our products and their quality services are supported by our barcode-based warehousing.

Through the years our product range grew continuously, and now we the capacity to deliver over 30000 different items, from which more than 12000 are in stock. Especially the group of fasteners was diversified in many industries. The main products sold are fasteners for wood, metal, drilling, metal fabrication, civil-industrial constructions, food, chemical, energy, electrical, petrochemical, gas, and automotive industry. Alongside these we offer industrial consumables such as drills, die plates, abrasive/ cutting discs, hand tools, electric-pneumatic- cutting tools, lubricants, adhesives, sealants and silicones.

Our products:

- Standard products: according to international standards DIN / ISO / AISI / EN / STAS, ASTM;
- Special products and products according to drawing;
- Are made of steel / alloy steel, stainless steel, aluminum and copper / brass;
- Have the mechanical characteristics corresponding to each group 4.8-12.9;
- Are covered galvanic or by other chemical methods;
- Are regularly tested and verified, so they correspond to the highest technical requirements; Products are provided with 2.1 and 3.1 quality certificates upon prior customer request;
- Are imported or manufactured in the country;

The wide range of products, completed with our constant stock, enables us to meet most orders in given time limits and special orders are honored within 15 days.

INDUSTRIAL PARK SMEs SLOBOZIA has as its main objective the attraction of investments in the area, the revitalization of the regional economic environment and the creation of new jobs.

INDUSTRIAL PARK SMEs SLOBOZIA comes in support of investors and provides land with areas ranging from 4,000 to 7,000 sqm in order to develop new production capacities or to relocate existing ones.

We consider that we hold all the advantages to convince you to invest in this industrial park, such as:

- Excellent location in the region from accessibility point of view - it is at the confluence of some very important crossroads in the area, which connects the city of Slobozia with economically key destinations: A2 highway, river and sea ports, international airports, important railway junction;
- Providing all utilities - electricity, water and natural gas supply networks, pluvial sewerage connection and housekeeper, up to the limit of each batch;
- Providing street lighting and perimeter lighting;
- Safety - the park is fenced and has 2 controlled access gates;
- Providing infrastructure - indoor access roads that allow access to each batch, as well as 3 parking areas;
- Granting tax incentives for investments made in the industrial park in accordance with the tax legislation in force and pursuant to some decisions of the Local Council of Slobozia, having the title of Industrial Park granted by M.D.R.A.P.F.E.

[Click here to download presentation...](#)

Interested in:

The following activities may be carried out on the premises of the INDUSTRIAL PARK SMEs SLOBOZIA:

- Processing and manufacturing industry with the focusing on various leading industries;
- Business activities in the prevailing financial, banking, consulting, design, research-development and management activities;
- Distribution activities with predominant cargo storage and logistics activities;
- Services, predominantly service industries;

In addition to the activities that predominate and give the area of specialization of the industrial park, in order to support the development of these activities, a series of related services may be carried out: provision of utilities, cleaning and security, trade and catering services, hotel activities, accountancy services, business support, insurance and services similar to or in direct connection with them.

Vetro Design is a company with over twenty-two years of experience, operating exclusively with Romanian capital. The organization is one of the main importers, distributors and exporters of medical and laboratory devices and products, dental products and professional cosmetic single-use products in Romania. As the biggest warehouse of medical and hygiene disposable products in the country, Vetro Design has over 5,000 square meters of storage space, with dedicated importing and distribution facilities. With a professional team offering efficient services to all customers and reserved manufacturing facilities of 10.000 square meters, Vetro Design can ensure a fast and constant distribution all over the European Union territory and also all over the world.

The company's main brand PRIMA is well-known in Romania. With over 3,000 articles marketed under this name, all dedicated to organizations operating in the healthcare industry, the brand has created a powerful image since its launch over fifteen years ago.

Vetro Design is also a manufacturer of professional work wear. Using only the best textile materials, high-standard equipment and having a specialized staff, the company has created a product range which includes medical uniforms, work clothes for the hotel and the food service industry and protective clothing (www.fabricadeuniforme.ro). PRIMA professional uniforms come in a variety of materials, colors and patterns, offering clients both comfort and style, at attractive prices.

As a direct importer and a manufacturer, Vetro Design offers competitive prices and has a very good knowledge of its product markets. The company also stands out by providing clients with an easy purchasing solution, offering them all needed products from one source, thus saving them time and money. Moreover, all products are subject to a strict quality control and respect the European Union standards.

[Click here to download presentation...](#)

Interested in:

In order to develop its portfolio and expand its current activity, Vetro Design is focused on meeting potential business partners. The main interests of the company lay in meeting producers and trade intermediaries, discussing possible partnerships and ventures with other organizations and investors, but also in researching and developing products and manufacturing processes, transferring know-how and technology.

Meeting with: Producer; Wholesaler

Romania country profile

Romania, in southeast Europe, is mountainous in the north while the main feature in the south is the vast Danube valley. The river forms a delta as it approaches the Black Sea, which is a wildlife reserve for countless native and migratory birds.

The Romanian parliament consists of two chambers, the Senat (Senate), which has 140 members, and the Camera Deputaților (Chamber of Deputies), which has 345 members. The members of both chambers are chosen in elections held every four years.

Ethnically, the population is 90% Romanian and 7% Hungarian. The Romanian language, like a number of others in southern Europe, is directly descended from Latin, although Romania is separated from other Romance-language countries by Slav speakers. Romania has considerable natural resources – oil, natural gas, coal, iron, copper and bauxite. Metal-working, petrochemicals and mechanical engineering are the main industries.

Romanian specialities include grilled meatballs, pork stew with garlic and onions and doughnuts made with cream and cheese.

The spine-chilling tale of Dracula is based on the 15th century Romanian Count Vlad Dracul whose son was famous in wartime for impaling captured enemies. Well-known Romanians include the writer Eugène Ionesco, the gymnast Nadia Comaneci and the composer George Enesco.
