Borg Design Company has successfully assumed the role of managing and providing information about businesses since 2003, making until now more collections of data with information of public interest.

The mission assumed by Borg Design is to offer the best experience in searching business information, making public, accessible, useful and up-to-date summary information about the business environment in order to support local business, regional and national and especially investors (national and foreign).

Under the name "ListaFirme", we developed the most complete and updated database, considered a source of contact for sales and marketing.

An updated database contributes to a better knowledge of the current business environment and by analyzing the statistics of past years correlated with other information from the business environment can be predicted with a better accuracy the direction in which the market will develop economically.

For a greater clarity, market segment analysis can be achieved easily by creating charts based on turnover, profit and number of employees. Hierarchies can be achieved both by countries or geographical areas as well by domain of activity.

Activity planning on a short or long term it is necessary to be done given that you have access to a real image of the market in which you activate and the markets in which you want to extend your business.

CORAL IMPEX was established in 1993 by Alexandru Badea, and is specialised in rendering professional services for PEST CONTROL SERVICES.

Our company stands out by the quality of works, by discipline, reliability and promptitude. The most important calling card is for us represented by our clients, as we use our best endeavours towards the satisfaction of their needs, in order to maintain our services to the highest quality standards. To have success means for us to have our clients satisfied with our services.

In our trial to permanently keep the pace to the newest techniques and products in the field of pest control occurred worldwide starting since in 2008 we became observer member within the British Pest Control Association –organization bringing together the most important operators in desinfestation, pest control and disinfection of Europe and United Kingdom of Great Britain.

All the efforts deployed by a dynamic team guided by a successful contractor led to have the company recognised to the national and international level by getting numerous awards (2014 - „National Prize” 1st place for services granted by the Chamber of Commerce & Industry of Romania; 2014 - certificate „Century International Gold Quality Era Award”, granted by the BID Group One at Geneva); 2014 - Global Green Award, granted by Association Orherways; 2013 - „National Award” 1st place for services granted by the Chamber of Commerce & Industry of Romania; 2013 – diploma 'Best Enterprises in the field of pest control services, Romania”, granted by Europe Business Assembly at Oxford, Great Britain; etc;

Fibrexnylon and Yarnea, both companies part of RadiciGroup since 2000 are located in Romania, Neamt county, on the Industrial Platform Savinesti. The principal activity of Fibrexnylon is distribution of electrical energy.

We has adequate lands and spaces for development of a wide range of industries such as textiles, machineries, chemicals, logistics, etc.

These facilities are complemented by an integrated network providing utilities. We refer to electricity, drinking water, industrial water, biological treatment plant, sewerage specific networks hydrants, infrastructure etc. as well as industrial roads and railways which completes the picture of an industrial platform.

As urban point of view we are positioned within the built-up of Savinesti village, in the industrial area. This is a real advantage in getting the full range of necessary permits establishment and operation of companies, according to Romanian law.

Our area is safe, property security has been provided by the integrated security system consisting of human security and the electronic security. The skills and the cost of labour and can you get provided in area are another strong point.

It's important to know that in the area of industrial platform operates about 30 companies of which 14 are owners and tenants the rest. Total employees working at this companies is approx 2000 people.

We have around 350.000sqm land to build and 40.000sqm building , available for sale and for rent also.

For any information don't hesitate to contact as.

The National Chamber – Unique National Services

Issuing Certificates of Origin

The Certificates of Origin are international trade documents certifying the country of origin of the shipped goods, meaning the country in which they were actually produced.

The Certificates of Origin are important for the classification of goods according to the Customs Tariff of the importing country and thus to determine / calculate the amount of owed duties.

Issuing ATA Carnets

ATA is an acronym combining the French and English phrases "Admission Temporaire / Temporary Admission."

ATA Carnet is an international document, issued by the 67 affiliated countries, which allows the owner, to temporary (up to one year) import goods without payment of normally applicable duties and taxes, including value-added taxes. The Carnet eliminates the need to purchase temporary import bonds, simplifies border crossing procedures, using a single document and allowing the visitation of several countries during the same trip.

ATA Carnet is a passport for the following goods: commercial samples; exhibits for trade fairs, exhibitions, shows, demonstrations and other special promotional events, professional equipment (artistic events, sports, technical).

Endorsement certificates for international trade

The National Chamber may issue, upon request, necessary documents for international trade (invoices, phytosanitary certificates, EUR 1 certificates, export certificates etc.). This service is particularly necessary for international trade documents signed with partners from non-signatory states of the Hague Convention in 1961 on simplifying the legalization of the documents that are to be used abroad.

Endorsement attesting Force Majeure circumstances

The Force Majeure event is an unpredictable and unavoidable circumstance, that effectively and without any fault prevents the debtor, to execute its contractual obligation. The National Chamber is the organization empowered by law to issue endorsement certificates attesting Force Majeure circumstances. The existence of the case of force majeure exonerates of contractual responsibility the debtor/professionals.

Romania country profile

Romania, in southeast Europe, is mountainous in the north while the main feature in the south is the vast Danube valley. The river forms a delta as it approaches the Black Sea, which is a wildlife reserve for countless native and migratory birds.

The Romanian parliament consists of two chambers, the Senat (Senate), which has 140 members, and the Camera Deputaților (Chamber of Deputies), which has 345 members. The members of both chambers are chosen in elections held every four years.

Ethnically, the population is 90% Romanian and 7% Hungarian. The Romanian language, like a number of others in southern Europe, is directly descended from Latin, although Romania is separated from other Romance-language countries by Slav speakers. Romania has considerable natural resources – oil, natural gas, coal, iron, copper and bauxite. Metal-working, petrochemicals and mechanical engineering are the main industries.

Romanian specialities include grilled meatballs, pork stew with garlic and onions and doughnuts made with cream and cheese.

The spine-chilling tale of Dracula is based on the 15th century Romanian Count Vlad Dracul whose son was famous in wartime for impaling captured enemies. Well-known Romanians include the writer Eugene Ionesco, the gymnast Nadia Comaneci and the composer George Enesco.
