“Business Park Bistrita South” is an industrial park located within Bistrita City, in the North-Western Transylvania, Romania. We are an active portfolio manager, adding value to foreign companies, leveraging their business in Romania.

Main purpose is revitalization of regional economy, boost foreign direct investments in our region and create new jobs.

Unfolding 30 hectares, our industrial park provides all the needed business infrastructure, such as:

- Power supply connection;
- Gas pipeline;
- Water supply line;
- Sewage system;
- Water treatment facility;
- Heating/Air Conditioning;
- Communication facilities (internet, mobile phone coverage, telephone, fax, wireless);
- Internal roads and parking;
- Landfill.

Key Advantages

- Tax Benefits and incentives.
- Manpower Benefits.
- Infrastructure Benefits.
- Business Services Benefits.
- Business Incubator/Accelerator.

Furthermore, we assist investors in obtaining financing, such as non-reimbursable state aids, non-reimbursable European subsidies, bank loans and private equity for further developments.

Facilities/Benefits offered to investors

- Exemption from land and building taxes and exemption on reinvested profit.
- Additional incentives and facilities to promote foreign direct investments (FDI): accelerated depreciation, carryforward tax losses over the next five years from the gross profit.
- Provide comprehensive support infrastructure for industrial activities.
- Land plots have urban planning certificate and all the required legal approvals for environment, topographical, geological available for investors.

- Management company will assist investors in relation to local authorities, including taxation authorities, meaning that will make every effort to put these relations normal.
- Wage subsidies for certain situations: hiring unemployed, young graduates, disables.
- Assistance for selecting, training and hiring personnel.
- Related services: cleaning and security, consulting, accounting, banking, custom duty management, catering, booking, ticketing, postage, insurance etc.
- Management company will be lobbying Bistrita City Council to obtain/extend facilities for investors.

Interested in:

We expect foreign and local investors to establish and develop within our business park businesses, like manufacturing (especially leading, hi-tech industries), services and distribution (storage of goods and logistic activities).

We are willing to form joint-venture with global companies looking to invest in Romania. This can apply to start-ups or companies seeking to reinvigorate existing operations. Each joint venture is managed independently, with its own structure, teams and board of directors (comprised of representatives from both business park and its global business partner). We also work with established Romanian companies if there is the opportunity to form an association with a strategic international player that is a leader in their segment.

Business Park Bistrita Sud offers an extensive network of contacts, direct access to the target customers, informed risk monitoring, innovative management techniques, cultural proficiency, access to non-reimbursable financing and state-aids.

Why should a multinational partner with us?

- Reason #1: Reduced risk launching a business in Romania. We are intimately familiar with business on the ground in Romania.

- Reason #2: Faster start-up phase. We have years of experience launching and running new businesses locally.

- Reason #3: We have "skin in the game." This means we invest our own resources in all of our joint ventures.

What do we expect from our partners?

We seek partners that have proven knowledge of their market, consistent investment in research and development, international references, prominent brands, and an appetite for international growth. We expect foreign investors to establish and develop joint venture companies with our Romanian partners, in order to seek out new businesses, oversee existing businesses and promote synergies among them. Our management team worked with a variety of technology partners and developed a sophisticated joint venture model that combined our management and project financing practices with the partners' expertise and product lines.

Activities:

Cagead-Licorn was founded in 1991, precisely when the real estate business began to become an integral part of the free market in Romania.

26 years of presence on the real estate market have allowed our company to gain a great deal of experience in this field. The intense work of a young and eagerly assertive team has led to a dynamic development process.

Cagead-Licorn has been actively involved in the organization and development of real estate business. It is a founding member of ARAI (Romanian Association of Real Estate Agencies) and UNAI (National Union of Real Estate Agents), and have also taken part in various activities and, in particular, training and improvement programs organized by such international professional associations as CERAN, EERPF, NAR, CEI, becoming full members of these associations. In May 2004, the National Association of Realtors (NAR) organized courses to obtain the prestigious CIPS Certificate (International Certificate for Property Specialist) no. 1-800-354-2831, which guarantees our recognition by profile associations around the world, including the National Estate Agents Association in the United States.

The company group has grown efficiently and permanently. Our financial results allowed us to sponsor a wide variety of events, fairs and exhibitions and participate in international events in this field.

Cagead-Licorn pay special attention to the services provided. Our employees and our specialists are specialized in various fields (technical, economic, law) and work with professionalism and seriousness. Besides brokering in real estate transactions, our company also offers other services such as technical inspections and building appraisals, cadastral files, legal advice.

Following a rigorous analysis of the real estate market, Cagead-Licorn has gone on to develop projects for residential areas, the most important being the "Straulesti Project".

Situated 15 minutes from the center, in Sector 1, in an exceptional location, the area will benefit, besides the villas for housing, commercial spaces, recreation areas and parking.

We are certain that in a few years, this residential area will become one of the most sought after in Bucharest.

To get to know us better, to get the services of a team of real estate professionals, we are waiting for you to contact us.

"Support you can count on!" Is our motto and that is why we will give you the help you need in order to conclude a real estate transaction.

INDUSTRIAL PARK SMEs SLOBOZIA has as its main objective the attraction of investments in the area, the revitalization of the regional economic environment and the creation of new jobs.

INDUSTRIAL PARK SMEs SLOBOZIA comes in support of investors and provides land with areas ranging from 4,000 to 7,000 sqm in order to develop new production capacities or to relocate existing ones.

We consider that we hold all the advantages to convince you to invest in this industrial park, such as:

- Excellent location in the region from accessibility point of view - it is at the confluence of some very important crossroads in the area, which connects the city of Slobozia with economically key destinations: A2 highway, river and sea ports, international airports, important railway junction;
- Providing all utilities - electricity, water and natural gas supply networks, pluvial sewerage connection and housekeeper, up to the limit of each batch;
- Providing street lighting and perimeter lighting;
- Safety - the park is fenced and has 2 controlled access gates;
- Providing infrastructure - indoor access roads that allow access to each batch, as well as 3 parking areas;
- Granting tax incentives for investments made in the industrial park in accordance with the tax legislation in force and pursuant to some decisions of the Local Council of Slobozia, having the title of Industrial Park granted by M.D.R.A.P.F.E.

[Click here to download presentation...](#)

Romania country profile

Romania, in southeast Europe, is mountainous in the north while the main feature in the south is the vast Danube valley. The river forms a delta as it approaches the Black Sea, which is a wildlife reserve for countless native and migratory birds.

The Romanian parliament consists of two chambers, the Senat (Senate), which has 140 members, and the Camera Deputaților (Chamber of Deputies), which has 345 members. The members of both chambers are chosen in elections held every four years.

Ethnically, the population is 90% Romanian and 7% Hungarian. The Romanian language, like a number of others in southern Europe, is directly descended from Latin, although Romania is separated from other Romance-language countries by Slav speakers. Romania has considerable natural resources – oil, natural gas, coal, iron, copper and bauxite. Metal-working, petrochemicals and mechanical engineering are the main industries.

Romanian specialities include grilled meatballs, pork stew with garlic and onions and doughnuts made with cream and cheese.

The spine-chilling tale of Dracula is based on the 15th century Romanian Count Vlad Dracul whose son was famous in wartime for impaling captured enemies. Well-known Romanians include the writer Eugène Ionesco, the gymnast Nadia Comaneci and the composer George Enesco.

Official name: Romania
